

DIN 99

Clamping levers

technical informations

Material

Turned and black-oxide steel.

Assembly

- Type K: plain through hole with straight arm (only for $R=50$ to 160).
- Type L: plain through hole with inclined arm by a 20° angle.
- Type M: tapped through hole with straight arm (only for $R=50$ to 160).
- Type N: tapped through hole with inclined arm by a 20° angle.

Special executions on request (For sufficient quantities)

Type A: without bore and flats i.e. with a solid ball.
