

GN 605

Grub screws with ball terminal

technical informations

Material

Black-oxide steel, hexagon socket head.

Ball

Hardened steel.

- Execution A: ball for applications requiring a single point contact.
- Execution B: reversible flat-faced ball for fitting non-parallel surfaces.
- Execution V: non-reversible flat-faced ball.
- Execution VR: non-reversible knurled flat-faced ball.

Maximum ball plane inclination for flat-faced balls = 9°.

Applications

GN 605 grub screws with ball terminal are suitable for locking or supporting pieces to be machined.
