

GN 605-NI

Grub screws with ball terminal

INOX
Stainless Steel

technical informations

Material

AISI 304 stainless steel, hexagon socket head.

Ball

Hardened stainless steel.

- Execution AN: ball for applications requiring a single point contact.
 - Execution BN: reversible flat-faced ball for fitting non-parallel surfaces.
 - Execution VN: non-reversible flat-faced ball.
 - Execution VRN: non-reversible knurled flat-faced ball.
- Maximum ball plane inclination for flat-faced balls = 9°.

Features and applications

GN 605-NI grub screws with ball terminal are suitable for locking or supporting pieces to be machined.

AISI 304 stainless steel, thanks to its high resistance to corrosion, allows the application of these grub screws on machines and equipment in those sectors where laws or particular hygienic, climatic and environmental factors make it mandatory to use corrosion resistant materials.

Standard Elements	Main dimensions							Weight
	Description	d	l	l ₁₋	l ₂₋	d ₁	d ₂	
GN 605-M4-6-AN	M4	6	0.8	-	2.5	-	2	1
