

S.N

Spherical knobs

technical informations

Material

Phenolic based (PF) Duroplast. Resistant to solvents, oils, greases and other chemical agents.

Colour

Black, glossy finish with equatorial groove.

Assembly

Glass-fibre reinforced polyamide based (PA) technopolymer self-locking boss, plain blind hole.

The elastic coupling by press-fit assembly on h9 tolerance drawn stock bars, is not affected by vibrations and prevents the handle from slipping off (see [Technical Data](#)).

Assembly instructions

Fit the handle onto slight chamfered shaft end and push as far as possible by hand or by means of a small press. Alternatively it is possible to tap the handle with a plastic or wooden mallet until firmly in place. In this case we strongly recommend to use a cloth or other suitable soft material over the product to avoid any surface damage.
