

Technical drawing of a mechanical part, likely a shaft or rod, showing dimensions and cross-sections.

The main view is a side view of the shaft. The total length is 737,0 ± 2 mm. The shaft has a central section with a diameter of $\varnothing 22^{+0.5}_{-0.2}$ mm and a length of 368,0 mm. The central section is flanked by two sections with a diameter of $\varnothing 10$ mm, each with a length of 337,0 mm. The shaft is terminated by two flanges, each with a diameter of $\varnothing 8,1^{+0.2}$ mm and a thickness of 16,0 mm. The flanges have a central hole with a diameter of 12 mm.

Two cross-sectional views are shown at the bottom. The left cross-section shows a circular flange with a central hole of diameter 12 mm and a fillet radius of R9,5. The right cross-section shows a similar flange with a central hole of diameter 12 mm and a fillet radius of R9,5.
